### PROJECT EXPERIENCE

#### ***Creative Agency Website***

This is a fully responsive and dynamic service provide website. In this, I also include admin and user Dashboard. Admin can handle this website dynamically.

- o **Front End Side:** HTML, CSS, Bootstrap, JavaScript, React.
- o **Authentication:** Firebase Login With Google Authentication
- o **Back End Side:** NodeJS, ExpressJS & MongoDB
- o **Live Demo:** <https://naved-agency.firebaseio.com>
- o **Code:** [github.com/navedkhan/naved-agency-website](https://github.com/navedkhan/naved-agency-website)

#### ***Travel Guru Website***

This is a traveling website. Users can select destinations and booking the hotel to stay in the destination place. The user can be seen also the destination map.

- o **Front End Side:** HTML, CSS, Bootstrap, JavaScript, React.
- o **Authentication:** Firebase Login With Email & Password
- o **Back End Side:** NodeJS, ExpressJS & MongoDB
- o **Live Demo:** <https://naved-travel-guru.firebaseio.com>
- o **Code:** <https://github.com/navedkhan/react-travel-guru>

#### ***Covid-19 React Application***

This covid-19 update information application with the open Disease Data API. I also used chartJS to visualize daily results. Country based covid-19 update result.

- o **Front End Side:** HTML, CSS, Bootstrap, JavaScript and React
- o **API:** <https://disease.sh/>
- o **Live Demo:** <https://react-covid-19-app.netlify.app/>
- o **Code:** <https://github.com/navedkhan/covid-19-react-app>
